

Junior Java Developer

Mohd Arham

Professional summary

Java Developer with 1 years of experience specializing in designing and implementing scalable and efficient software solutions. Proven ability to collaborate with cross-functional teams and deliver high-quality code on time. Adept at problem-solving and continuously enhancing skills to stay current with industry trends.

Experience

Junior Java Developer

February 2023 - Now

SoftBlock(OPC) / India, Bhopal

As a Junior Java Developer at SoftBlock(OPC) in India, I gained valuable experience working on a diverse range of projects and collaborating with a team of developers. My role involved utilizing my knowledge of Java programming language to design and implement software solutions for clients.

- Executed the development and upkeep of Java-based web applications, embodying Agile principles of iterative development, adaptability, and collaboration.
- Use the Razorpay API to create a payment order and obtain the order ID.
- Implement dynamic form validation as the user types to provide real-time inputs.
- Incorporate the obtained API key configuration for secure communication with the email API.
- Implement server-side pagination logic to fetch and return a specific subset of data for each page.
- Designed and implemented a student management system, streamlining administrative tasks for students.
- Implemented RESTful API to enhance system performance and scalability, managing endpoints.
- Managed the deployment and maintenance of websites on AWS hosting platform EC2 server.

Projects

Tech-Blog Application

- Role-based access control for different user types (admin, author, reader).
- Robust search functionality to find specific blog posts.
- Filters for sorting posts by date, category, or popularity.
- Encrypted password storage for user security.
- Moderation tools to manage and respond to comments.
- **Tech Stacks** - Java, Spring MVC, Spring Security, Thymeleaf, Spring Boot, JPA Repository, Jwt Token, MySQL, Web Development, Bootstrap.
